Summary

IPEDS Student Financial Aid (SFA) Survey Summary

IPEDS collects important information regarding your institution. All data reported in IPEDS survey components become available in the IPEDS Data Center and appear as aggregated data in various Department of Education reports. Additionally, some of the reported data appears specifically for your institution through the College Navigator website and is included in your institution's Data Feedback Report (DFR). The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the College Navigator website and/or your DFR. College Navigator is updated approximately three months after the data collection period closes and Data Feedback Reports will be available through the [Data Center](#) and sent to your institution's CEO in November 2017.

Please review your data for accuracy. If you have questions about the data displayed below

Screen: Part C, Page 2 - Enter Information about Group 2

Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 8,467 and 12,699 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason:	We did not find a relationship between increase in EFC and a decrease in other loan amounts. The number of students receiving other loans is small, so a change in just a couple students can skew the results.			

Screen: Part D - Enter Information about Group 3

Screen Entry	The number entered is outside the expected range of between 94 and 174 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason:	This is due to First Time College enrollment drop for Group 3 from Fall 2015 to Fall 2016.			

Screen: Part E - Enter Information about Group 4

Screen Entry	The number entered is outside the expected range of between 46 and 84 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason:	This is due to First Time College enrollment drop for Group 4 from Fall 2015 to Fall 2016.			
Screen Entry	The calculated average amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. Please check the values reported for the number of these students who were awarded any Title IV aid (Col. 1) and the total amount of grant or scholarship aid awarded to them (Col. 3) and correct your data or explain the discrepancy. (Error #7317)	Explanation	Yes	
Reason:	The most significant difference in the aid awarded to students in 04d versus 04e is in the form of housing scholarships. More students in 04e qualified for and were offered housing scholarships than students in 04d. When we removed housing scholarships from the calculations, this anomaly disappears.
