any right, title or interest in any such plan income; and the employer shall have the unrestricted right to such income and complete control over its disposition. Provisions in this plan for accounting for plan income and expenses and for recommendations from plan participants are not intended to and shall not be construed to confer on plan participants any right, title or interest in plan income, any right control the disposition of plan income and expenses, or any right to determine salaries. In addition, the plan is created to implement the following purposes:

1. To provide a system by which the faculty is enabled to achieve fulfillment of their commitment to high quality patient care.
2. To recognize that high quality patient care is related to faculty participation in teaching and research and also that high quality clinical teaching is dependent upon the faculty being engaged in active medical practice, thereby assuring an adequate supply of clinical material for educational purposes.
3. To establish incentive mechanisms for faculty compensation which enhance the attainment of the Health Sciences Center goals of patient care, teaching and research.
4. To assure a University Physicians Medical Practice Plan which will be competitive with income plans of other academic medical centers in the United States.
5. To assist with the retention of qualified faculty by contributing to their total compensation.
6. To establish and maintain a set of policies for the management of professional income which is sufficiently flexible to respond to the needs of all participating individuals, sections and departmental differences.
7. To provide a mechanism to support programs that benefit the School of Medicine.

8. To establish a methodology of professional income generation, distribution and utilization.

C. **Participants** -- All Faculty of the School of Medicine who are members of the University Hospital Medical Staff who as part of their faculty responsibilities generate income from professional activities for patient care related services which is assigned to the University pursuant to the Plan shall be participants in the Plan.

1. For each participant, a written Agreement shall be executed annually and filed in the Business Office of University Physicians. Each Agreement shall contain a statement that the participant will abide by all provisions of the Plan.

D. **Plan Income** -- Within the framework of the Plan, Plan income means:

All income derived from patient care and other income derived from patient care provided by a participant in the performance of regularly assigned duties for the University as determined by the appropriate person having supervisory authority of the participant. For participants who are full time employees (0.75 FTE or greater), such participants may not engage in income-generating patient care activities outside of their regularly assigned duties for the University unless such outside activity complies with applicable law and University policy and has been approved by the Dean and Department chair.

1. As unique instances of patient care occur, the University Physicians Management Committee will recommend whether income derived from these instances constitute Plan income.
- 2.

Medical, Professional, and Patient General Liability for University employees and should be separately reviewed to determine whether and to what extent coverage exists for activities done outside of regularly assigned duties for the University.

E. Distribution of Plan Income

1. **Costs of Operations** -- The costs of operations of the Plan will be funded by applying an approved deduction rate (percent) to Plan Income. The costs of operation of the Plan may include expenditures for the following items and activities:

- Billing and Collections Costs
- Professional Liability Insurance
- Support personnel, services and facilities
- Administrative costs
- Retirement
- Other items that are deemed necessary in the operation of the Plan

Annually and as requested by the University Physicians Management Committee, the Executive Director of the University Physicians will report to the University Physicians Management Committee the expenditures to date for the costs of operation of the Plan. A final accounting report will be issued after the close of the accounting period.

An annual budget will be submitted for the costs of operation of the Plan. Based on the budget that is submitted the University Physicians Committee shall recommend a deduction rate to be proposed for the period covered by the budget. The proposed deduction rate and budget for the next fiscal year must be approved by the Dean.

Further, for certain types of Plan income, such as contract income and certain other types of "lump sum" income, requiring

a minimum of administrative and business office expense, it may be appropriate to establish a special deduction rate(s) to cover operating costs.

In exceptional circumstances, it may be necessary to alter the deduction rate during the fiscal year. Such an alteration will be recommended by the University Physicians Management Committee and approved by the Dean.

Separate accounts will be established for each category of expenditures authorized in this Section 440.040 E.1. Expenditures from these accounts will be in accordance with standard University standards.

From time to time good accounting practice and effective fiscal management may well indicate a need to revise, expand, contract or otherwise modify the accounting system relative to the Plan. Nothing in this Plan shall be interpreted as preventing such accounting revision, expansion, modification or contraction so long as they adhere to generally accepted accounting principles and University policy.

2. **Dean's Office Account** -- A Dean's office account shall be maintained. The account shall be credited with 6 percent of the Plan income. Any expenditures or transfers from this account must conform to standard University budgeting policy.

determination becoming a part of the recommended School of Medicine budget. That portion of the faculty member's base salary which is budgeted from Plan income shall preferably reflect the extent of their efforts in patient care. The salary contract will be negotiated in the same manner as other School of Medicine faculty contracts.

The portion of base salary budgeted from plan income is payable only to the extent of departmental net plan income. If Departmental net plan income is not sufficient to meet budgeted base salary, then the individual Department Trust funds or the School of Medicine funds will meet the remainder of the obligation.

Under normal circumstances the portion of the individual's base salary budgeted from Plan income will be derived through only one Section/Division or Department. Under the special circumstances of interdisciplinary programs individuals with joint appointments may derive salary measured by Plan income from more than one Section/Division or Department with the approval of the participant, the Section/Division Chief or Chiefs, the Department Chair, University Physicians Management Committee and the Dean.

The faculty contract year for the purposes of the Plan will be the faculty contract year of the University of Missouri. Faculty members who commence employment subsequent to the beginning of the faculty contract year may be a participant for the remainder of the year.

3. **Payment of Base Salary** -- A departmental or divisional/sectional base salary pool shall be established for each department or division/section in which net plan income will be pooled and from which base salaries as outlined above (Section 440.040 F.2) will be paid.

G. Distribution of Incentive Income

1. For purposes of this section, the following definition applies: The words "Incentive Income" will refer to net plan income less the costs of base salary contract commitments as outlined in

of the section/division, the Department Chair and the Dean.

- b. Annually on the date established by the Dean the appropriate Departments will submit proposals to practice as departmental or sectional/divisional groups to pool their Plan income under Section 440.040 G.3.a.

4. **Participant's Account** -- An account shall be established for each Participant which shall be credited with the participant's portion of the Plan income as determined by the University Physicians Medical Practice Plan base salary contract and the incentive income distribution schedule. All expenditures or transfers from this account will conform with the participant's plan contract provisions relating to the participant's share of any incentive income.
